ACRONYMS

- CMS = Centers for Medicaid & Medicare
- CQMC = Core Quality Measures Collaborative
- HP = HealthPartners
- MNMCM = MN Community Measurement
- NCQA = National Committee for Quality Assurance
- PQM = Partnership for Quality Measurement (consensus-based entity for measure endorsement)
- SAMSHA = Substance Abuse and Mental Health Services Administration
- SQRMS = Statewide Quality Reporting and Measurement System

NOTES

- **SQRMS:** The columns with the highlighted “SQRMS” label will be updated once MDH publishes their final rule.
- **Follow-up Children Prescribed ADHD Medication: Continuation & Maintenance Phase:** Beginning in the 2024 measurement year, MNCM will transition from reporting on the Initiation Phase measure to the Continuation & Maintenance Phase measure. For the 2024 measurement year, statewide and medical group results will be privately reported to medical groups/health plans.
- **Optimal Asthma Control:** Beginning in December 2024, this measure will undergo a redesign through a measure development workgroup. However, the measure will continue to be collected and publicly reported for the 2024 measurement year using the existing measure specifications.
- **Additional measures to be privately reported in 2025:**
 - Asthma Education & Self-Management (Adults & Children)
 - Spine Surgery: Disc/Lami Measures
 - Spine Surgery: Lumbar Fusion Measures
 - Oncology Suite
 - Total Knee Replacement
