Option B

Discontinued Submission Options	
Option A:	Submit both start and end dates
Option B:	Submit only end date

*Queries should create a CSV with headers

Historical vs Incremental Files

Historical Data (Onboarding)

- Historical data starts 1/1/2019 and ends 12/31 of the previous year of onboarding. (e.g., 1/1/2019-12/31/2023)
- Medication & Allergy: Includes those that are active on the patient record

Incremental Data (Subsequent Submissions)

- Incremental data is based on Medical Group's preference for submitting data post-onboarding (e.g., monthly, quarterly, etc)
- Medication & Allergy: any updates from historical and other incremental data (e.g., end dates, new medication rx or allergy dx, etc)

MN Community MEASUREMENT

| Historical	Incremental
➢ Starts Jan 1, 2019	➢ Recommended start Jan 1, 2023
➢ All medication and allergy records that are active at the time the data is pulled are required	➢ This will ensure custom calculations are as comparable to DDS
➢ It is acceptable to include inactive medications and allergies, but this is not required.	➢ All medication and allergy records that are active at the time the data is pulled are required
	➢ All updates (inactive/end/discontinued) are required
